**In Most Cases of Chronic Illness**

the restoration of normal function, the reinforcement of vitality, and the fortification of the power of resistance, are the important therapeutic indications. **Pepto-Mangan (Gude)** is not simply a temporary restorative, but also a real blood constructor, and thus assists absorption, assimilation and nutrition generally.

**Weather**

Temp. Snowed last night.

but was foggy this morning,  
& by noon it was all gone  
Melba took Grace as far  
as Rogers's corners didn't  
go any farther because  
the boys belled B. Melba
