## Gynecological Hint.

To replace a retroverted uterus, place the woman in kneechest posture. Retract perineum with Sims' speculum and grasp cervix with volsellum, drawing uterus gently downward. A swab of cotton grasped in a dressing forceps may then be gently pushed against the fundus behind cervix. A suitable pessary should now be applied.—*Med. Review.*

Weather

Temp.

Cooler Had a terrible rain last night. The creek was running over the road by Rogers' Coyners. Mr Guss Rogers had to take his cattle home by our place for the water was so high in the creek on his farm. Girls took their music lessons today & was at Mrs McBoys. We was all down to John Skimmers to night & I went to St Thomas. Lightning was terrible last night. Eugene made a boat & it upset & spilled them all in the creek. finished Eugene's hat yesterday Billy's Mariah's
