181 DAYS PAST

SATURDAY

185 TO COME

April 2, 1907.

D. D. Laws, M.D., King's Creek, Ohio, says:

"Some time ago I received the medicine, **Pepto-Mangan (Gude)**, and have been using it in my own family. It is giving perfect satisfaction, and I shall prescribe it whenever indicated. It is a fine mixture, and palatable as well as sightly in appearance."

A fine day The men struck water & plenty of it in the new well, north of the north barn. Got an third crock of butter. Gaudie went to Aylmer for some sea rocks. Eugene was over to night & John went to Aylmer with him. Mr. Boyd & Shed was here to the well.
