map cloth - border - looking at it $1\frac{1}{2}$ hours.

Tuesday June day. Charles and I dug potatoes
Sept: 28th - for $\frac{3}{4}$ of an hour before breakfast. Then
I worked at the potatoes from 9.30 until
12 - finished taking them up and picked
up a wheel barrow full. After dinner I
went down town for the mail and at
then put new knob on my typewriter
roller. At 4. p. m. Dorothy and I went
with Mr. & Mrs. Bell and Jean for a
drive out into Bentricks. I did not
know there was such beautiful
scenery near Chesley. Hills & lakes
and woods - Passed through Crawford

and Louise. Had a chat in Cranford
with Mrs. Brown - Cranford School teacher.
From the top of a very high hill we
looked down over hills and vale with a
ribbon of road winding away into
the distance with a most glorious
sunset at the end - one great
golden glow at the end of the road
but red and purple and angry
looking at the sides until it
merged into the grey and black of
storm clouds while the north was
all black. Got home about a quarter
to six and a little sprinkle of
rain came on so Charles and I
picked up and brought in the rest
of the potatoes and emptied the
wheelbarrow which I had filled in
the morning. At 8 p.m. I went to
the Church and with Mrs. Rogers
started out to a corn wash -
(Cavell Girl's Club + Osage Rangers)
Mr. Fiddis joined us at Brown's barn
block after the boys. He went along
by river, through Brown's bush to the

Other side where the fire was made &
the corn wasted and brush & walls
wasted. Most beautiful night and the
moonlight on the river was very beautiful.
Pink Hetherington, Hillard Bero and some
other boys of their ilk made a nuisance
of themselves by wiring up the gate,
stringing wires between trees in the brush
and then came up in a canoe and
then mud etc. when a battle followed
and the soap Rangers splashed them
well by throwing stones and thought
they injured their canoe with a large
stone. Coming home we went around
the bush - Gerald Green, Alma Murphy,
Marion Glenn, Margaret Dry, Annie
Shoan and I went straight up to the
road where we had to climb a
wire fence - then we came home along
2nd concession - the rest went over a
wire fence and followed home along
the river & found the gate out of Brown
field closed - I met Mrs. Rogers at top of
hill and walked on home with her
and Sidney & Hilda Barrett. It seems

too bad that a few boys should be
allowed to interfere with the fun of
them. Starting to rain as we reached
McDonald House corner.

Wednesday Sept-29th Went down town in the morning
for meat. Quite cool & rather cloudy.
At 10.20 a.m. Mr. Bell called and
Charles (got him at office) met Mrs.
Bell, Jean and I started for
Southampton. It was quite windy
and rather cool driving over.
Dined at the hotel, after dinner we
went down to beach. The lake
was great - green in spots -
deep blue in others - white-capped
and great breakers rolling in.
We called on Mrs. McYowan who
was canning fish and explained
the process for us. Nearly all the
cottages are shut-up and I fancy
she must be lonely in these grey
days. We left Jean with her and
Mr. Bell, Mrs. Bell Charles and I
walked the whole length of the beach

and out to the end of the dock. Windy
and cool but beautiful. called for
jean and while Charles & Mrs. buckle
went up to the mouth of the river,
Mrs. Bell, Jean and I went shopping.
Jean tried on boots - and then we had
ice cream. Started home about 4.30 pm
and got home a few minutes after
5. Raining when we left Southampton
and had a couple of showers on the
way home. Paisley Fair but no great
stir as we passed through the village.
after tea Dorothy and I went to
the Bazaar to see "Haunting Shadows"
(taken from "The House of a Thousand
Candles.") enjoyed it but not as
good as the book. Cut out my
Centrepiece after tea. Fine in general.

hay chnk for hot hours and a half.
Snowing - real snow, but Donkey was
down at the Donalds for a couple of
hours. I went down home about 5 p.m.
to get some things. Still snowing. As
leaves are all on trees the snow is
bending them right over. The
mause apple trees are badly broken
and between Rich's and Davey's
over so many big limbs are down.
Electric wires broken in some places
but our lights came on shortly after
5. This was our Fair day but the
weather was so bad the Fair was
postponed until next year. The
Concert - Rupert delegate to. - was on.

Found Mother (who went to Covenant Church) here when we go-home from church in the morning. Charles and I went to church at night. Alice Jean and Bud came home with me and Charles and Charlie stayed for Session meeting. Have decided to ask Mr. Workman for his resignation - do not approve - am afraid things will only be worse. Charlie came up for Alice and Bud. Walked up & down walk for 20 minutes after P. S.

Monday Beautiful day. Went down for meat and
Oct. 4th - deposited P. S. collection. Did up empty
spools to send to Donny. Wrote to Donny,

down town for the trail. Donny and I
walked about 3 miles (out to corner at
McGregor's and back) and walked
around cemetery on way back. Got
wool and needles to knit a skirt
for Donny. Mrs. Litch called while we

were out walking. Wrote to Mrs. Lenore Carter and to Gene Inayen. Dorothy went over to Halliday's to play bridge with Alecia, Jean Johnson and Viola Mairi. Started to knit at Dorothy's skirt. I am watching boys and girls. Very
nice time. Spoiled somewhat; after
we left; by some of the usual
Huddersham element - putting coffee
in ice cream etc. There seems to be
no end of it. World is no longer a
comfortable place to live in and there
are very few gentlemen among the new

Generation.

Saturday Beautiful Day. At 8.30 a. m. Charles,
Oct. 9th - Dorothy and I went to Walkerton. Charles
had to go. Dorothy and I went to the -
fur store and bought 2 squirrel
skins to make a cover for her hat.

up to call on Mrs. Greig and then went
to Dr. Sinclair's where Charles joined

down town to get some bulbs, met Myrtle
Safana (who is home visiting) and

Frenchy) Put in a few more bulbs

hour and 10 minutes. Called on
Mrs. Green and Mrs. Pollock and

more letters ready. Then wrote
special letters to Harvey Bone,
Frank, Kathleen Carter, Jim
Halliday, Milton Johnson, Nell,

Indian Summer & fancy -
Lazy and beautifully warm.
Wore summer dress and
no coat.

Mrs. Halloway was in the office on Monday. She says a lawyer was put in prison for 15 years for doing what Charles did. She also said that he was just shoved through college & then they sent him up to the back woods and she promised to pray for maledictions on his head unto the 3rd & 4th generations. She also stated that I said on the street that my husband would not write a letter for less than \$1. She is about as big a fibber as they make them and the worst client Charles has ever had.

Thursday Beautiful day. Tipped Series of Oct. 14th. Settlement in Hesserauer v. Thede for Charles & a memo for Mr. Peaslee before getting ready to go to Walkerton - left for W. at a quarter to 9. plough at work.) Went to jail to see
Mr. Green. 1st visit to a jail. Very
gloomy - indescribable place of residence.
Mr. Green asked about Mrs. Green and
then told me the history of dope given
to her. He is evidently most unhappy
and greatly worried. One could not
but pity her and realize that it
was all very real to her. Went for
a walk - 8 1/2 miles - out to McCannell's
School and home via block from
2nd concourse to 4th concourse.
Had six offers of rides, after tea
called on Mrs. Green and wrote to
Clare and Virgilio Ferguson and
went to station with Dorothy to post
my letters.

Friday Beautiful warm day. Wrote a
Oct-15th letter for Charles. Knit 25 rows
