

July 15 we turned over all the heavy clover & shook it out then
I raked up with Mr. Saucklin's horse gear & his father
drew in 8 loads it is very good order

19 we put nearly 2 more loads the stack when it began
to rain we piled up the middle & back so that they have in

20 we finished the stack this afternoon I turned over
the windrows & top of the stack in the forenoon they had

21 Dan went to Kingston to see the Shaver this father and
me raked & caked up what was left in that field

we had 50 cacks Mr. Warronman went home
at noon I gave him five dollars & for his work & 1

for this son can be worked & doing hissing

22 And Mr. Shaver preached at night

23 I mowed in the middle field about one quarter of it
Dan cut round the fences and hauled

24 Dan went with the cultivator through the potatoes
that we planted on Burnes place in the forenoon
we then raked and caked what I mowed in the ^{center} field

25 I got Mr. Watts to help we began a stack in the middle
field put 2 loads in the bottom of the clover hay
from the north field & 4 from the middle field
that was all we had cut there is over 150 cacks

26 I mowed the south east quarter of the center field
Dan finished haying the potatoes on Burnes place

27 I mowed part of the center field & Dan cultivated

some of the potatoes in the middle field in the forenoon
we raked & caked what I cut on Wednesday

28 Mr. Watts began to work this morning a wet day we also
hauled wheat & 20 of cacks Dan took them to Essex

29 Mr. Watts hauled part of cacks for the horse fence

30 Rev. Mr. Smith preached this morning Dan took him to dinner

31 we took the hay that was west of the stack and stowed up
the cacks this forenoon after dinner we got nearly
3 loads in the stack when it began to rain we piled up the

31 at odd times Watts hauled part of cacks in the north
side of the barn Dan & I mowed on the fence
boards today Watts piled up the old stack both
East of the old Barn no hay within
