

Saturday October 27th

Dad and Frank were back over the gully all morning & most of the afternoon plowing and the other cleaning out ditches. I spent most of the morning fixing the fence around the old well as the sheep have taken to wandering around it and we were afraid one of them might get in. I did chores most of the afternoon.

It was a beautiful morning but it began to rain soon after dinner and it rained steadily but not hard till after tea and then it poured nearly all night. Dad and Frank got soaked. Lila was over for awhile this morning.

Sunday October 28th

Frank went down to Sunday school this morning and I went down a little later but was too late to go to Sunday school so went up to the bank and woke Clark up and got him to go to church. Aunt walked over with us to dinner and we found Charlie & Flossie Shand here. They had started to church but they have the road past Penman's barricade so were too late and came in here. This afternoon I took Mary for a drive around by Lynn Valley.

I went down town again to night and went over to the Moore's. Garry & they preached in our church 5. night but I was too late to go. Clark told me this morning that he has been moved to Ottawa and is leaving to-morrow so I went up to night for a minute to say good bye to him. Cool & Cloudy to-day. Mild night.

Monday October 29th

It has rained nearly all day steadily, it began last night and is still at it to-night. I spent the day killing my crate fattened chickens and it took me just about all day. Each picked the pin feathers out for me. I made a pretty good job of them, I stuck nearly all of them in the brain and tore them very little. Dad did chores and read to the baby most of the day. This afternoon Frank went over to Mrs. Robert John Watson's sale and got soaked to the hide.

Tuesday October 30th

I took my box of crate fed chickens down this morning and expressed them to Waller's. I didn't do much more this morning after I got home as it was nearly noon. Dad and Frank cut blocks off the old oak all morning. After
