289 DAYS PAST

76 TO COME

**Readily Taken—Decided Improvement.**

From Westminster Hospital, London, comes the report: "With reference to the sample of **Pepto-Mangan (Gude)** that I had from you. I am happy to say that it was readily taken by the patient and that there was a decided improvement in the condition of the blood."

**Weather**

**Temp.**

Rained nearly all day. John went to mill in the morning we finished picking and loaded the cister apples. Girls drove to school.
