

and I intended going to town this afternoon as I was here to take care of the kids but we changed our plan on account of the weather. I didn't do anything much but have a snow and put up a couple of shelves in the attic.

Saturday April 2nd

Tom walked over this morning but it was slippery with yesterday's snow so I told him he had better finish up his papering and accordingly he & his wife worked at it all day and got the ceiling and part of the walls on. I spent the forenoon doing chores and then afternoon we all went to town. We took our Eggs to Chris Jacobson as he sent a card out saying he wanted them. We also took Mrs. Lampkins butter and got some groceries for her. Mary did all the shopping while the kids and I stayed with Roy & Auntie. Fine day cold east wind.

Sunday April 3rd

I went over first thing this morning and helped the Lamphs do some of their chores. Davis' hand & arm do not seem to be improving. I spent the forenoon churning and putting up milk about noon we all went over to the Lampkins and Mrs. Lampkins had for her

while I went over to Louis to ask him if he would shave Dave. Tom used to be a barber of some repute when he was here before. Tom & his wife were busy papering and had been all day and still had a lot to put on but they seemed quite pleased with their progress. When we got home again Gay & the baby went to sleep and Mary went over to Sunday school leaving me to read to Hussy. B. the natural consequence being that I went to sleep and he didn't. I woke up before Mary got back and washed up the dishes. Just about the time Sunday school closed Juliet and Vernon came in. They had been for a drive in Quint's car and left it at the road. They weren't here long and I got ready and went down to Auntie's with them for tea. Leaving Mary alone for tea and all the chores for Tom who came to do them just before I left. I went to church to night and then to the band concert in the hall. Fine day, row S.E. wind. I walked home after the concert to night.

Monday April 4th

Tom was over ploughing this morning about the time I got out to do chores, which was around seven o'clock. He had two rounds ploughed before I saw him.
