16/17

**Wednesday, December 16, 1907**

351 DAYS PAST

Monday 17      15 TO COME

May 9, 1907.

**Dr. George Schoeps, New York City, says:**

"I have been using **Pepto-Mangan (Gude)** since 1892. In a general practice extending over fifteen years, it has been my good fortune to prescribe it in various conditions, and whether given in Neurasthenia or Chlorosis, in Anemia—remote effects of post-partum hemorrhage—or in convalescence of adults or children from severe general or infectious diseases, it has always demonstrated to my entire satisfaction its power to influence favorably the biological condition of the blood and to influence favorably the clinical conditions of my patients."

Warner & I both went  
to school; John went out  
to the school house, this after-  
noon & to night; Lewis &  
John went to Ayler.  
The election for the govern-  
ment & Marshall is blowing  
his old whistle all the  
evening as he has won the  
election. Carl's horse ran away.  
Mike & Billy & Mariah &
