

Friday June 11th

I don't remember just what we did this morning but this afternoon I drove Cash down town for provisions as we just got word last night that the mill-men are coming up to-morrow to stay over Sunday & take Aunty and Aunty Alice back with them. When we got back Dad & I started to clean out the floor of the hilly barn where the sheep were all winter. Dad hauled a couple of loads out to the old garden to place under. While we were there Old Juey from the mill brought his horse over to turn in the pasture. Aunty went down to a Red-Cross party at Mrs. Buck's this afternoon. Aunty Alice got word to-night that Mr. Billings was dead. He died at the hospital in Montreal and Mrs. Billings left right away for the U.S. as Aunty Alice won't see her as she hoped. She feels very badly about it. Another nice day.

Saturday June 12th

When Dad got up this morning he found Old Juey's horse over in Thos. A's oats. Harry must have picked him over during the night as they didn't seem very friendly. I spent nearly the whole day cutting the lawn but I got it all cut front and back and it looks pretty nice. I also dug up the

shrubbery bed but not the plants. Dad put in all the day cleaning the manure out of the barn and got it looking pretty slick. We put old Juey's chariot and our baggage in there as we will put the mill-man's car in the drive here. Frank spudded thistles to-day in the barley. Dick came home to tea to-night to see the mill-men. They got here just before tea. Mr. & Mrs. Millman, Kathleen & Clem who acted as chaperon. After tea Clem took us three hoop, Kathleen & Cash to Simons also Winnie & Lila. It has been hot to-day but breezy. Frank and I went down to Hubby's to sleep to-night.

Sunday June 13th

I came home as soon as I got up this morning but Frank stayed down to go to Sunday School and church. Aunty was the only one who went down from here. Clem, Dick and I went for a swim this morning as soon as they got up, the water wasn't bad at all. After dinner I took Frank out and jumped on her back and as Kathleen was so anxious for a ride Clem put her up behind me but we didn't go very far as it was too strenuous to hang on without a saddle so then I put the saddle on her and Clem took a short ride while Kathleen was putting on a old pair of overalls then she had a little ride, they both seemed to enjoy it. This afternoon Clem took all but Aunty, Aunty Alice, Frank and me
