321 DAYS PAST

44 TO COME

Quantitative Anemia

is that condition of bloodlessness due to actual loss of volume of the circulating fluid. After the loss has been checked, **Pepto-Mangan (Gude)** performs "yeoman's service" by creating hemoglobin and constructing new red cells. It is palatable, readily absorbable, promptly tolerable, and free from constipating effect.

Weather

Temp.

Cold this morning, but
turned warmer through the day,
& the snow is about half
gone. John husked corn this
morning. Ploughed this after-
noon. Joe washed this morning
& husked corn this afternoon.
Marked Clarence was down
to Myrtle all day. Girls
drove to school. I have been
braiding a corn husk mat &
Mella has been helping me
do it. Mr. Danes brought a
three cheque for \$99 Dollars Marshall & Bill's
