

school and had a talk with Mr. Smith after four and came home around by the mill with Frank. My old setting hen hatched out a few chicks to day but I don't know how many. Stuby came over at seven this morning and pruned nearly all day, it was too windy for awhile this afternoon so he put a window in the wood shed which is a great improvement. Sam Law was over for quite awhile to tell us we could get butter over there now. It has been very cold and windy all day. It looked as if it would be a lovely day this morning although it froze very hard last night, but it clouded up and snowed every now and then all day. Freezing hard to night.

Friday April 10<sup>th</sup> Good Friday.

Stuby pruned in the orchard most of the day but this morning he and I took a walk back to the gully and he paced off the length of fence it would take to go along the top of the gully to the road. When we came back I cleaned up some more brush in the orchard, I worked at it a little this afternoon too. This being Good Friday. Evah went down to church, Dick had a holiday so stayed in bed till noon. Frank and Russ spent the afternoon back in the gully, they saw some fish but had no way of catching them. Dick was downtown all afternoon got home at mid night. We three boys went down to the Moving Picture show to see the

battle of Waterloo, it was pretty good only all about the same. Lovely day sunny and windy much milder.

Saturday April 11<sup>th</sup>

It was cloudy cold and raining at seven o'clock this morning but Stuby came over and worked around in the old house till we did chores, he then went over with Dad. & me to see Tupper. Dad. wanted to ask him if he could harrow his hog rack, and we took the shot gun & fish spear, after we'd seen all around the place Stuby and I struck off down Tupper's creek we followed it way down to Black Creek but never saw a thing we then cut across to Art. Rypers where we saw Wilton & James M<sup>r</sup>. Pherson & Stewart Reeves with two or three measly looking fish. We got some quite awhile after noon. This afternoon Russ & I did chores. Stuby pruned orchard and late Dad. went over and got Tupper's hog way & scales which Tupper. was very anxious he should bring over. Frank went down town this afternoon to get some window sash fixed & glazed for his shop. Quint came over this afternoon and saw the ducks out in the swail hole and shot at them but was not close enough. He & I saw six geese fly over the place this afternoon. It didn't turn out to be a bad afternoon at all but is freezing a little to night.
