## A Considerable Help in General Debility.

An English physician reports: "In addition to its value as a digestive and tonic, the fact that **Pepto-Mangan (Gude)** does not stain the teeth, and also that it is very palatable, are high recommendations in its favor. I have found it a considerable help in a case of general debility."

Mella went this morning & got  
Aleta then Aleta Mella & Leung  
went to the circus. I was home  
all day & Maude was sick.  
Mella enjoyed the circus very  
much. Clifford was up came  
home with Maude, when she  
went down to get some gasoline  
& planted more Cabbag &  
plants. Mella drove Billy  
for Aleta then he worked all day
