143 DAYS PAST

222 TO COME

The Pallid, Anemic School Girl.

needs something more than regulation of studies, fresh air and nourishing, easily digestible food. A blood count will almost always show a certain degree of anemia, usually of the chlorotic type. For such patients **Pepto-Mangan (Gude)** is especially indicated as a non-irritant, non-constipating, ferruginous tonic and reconstituent, which promptly overcomes the existing blood impoverishment.

Weather

rather cold

Temp.

Mr Marchant went home
this afternoon she went with
Maude & when we went to Aglan
I was down to Mrs Thompson
This morning and took the
cleaner. Got car & got out
& Boy & brought me home. John
& Stella was out to the north
place all day. Eugene took
old spot & fine lambs to
Kingmill.
