

over and Charlie Blake and Fred Rolson were there and a little later Neff came down with Leo Challand. Home Myers also helped up but no more of the boys came. Neff took our team and he and Rolson plowed all the potatoes out and we got the ones off the clay patch all picked up before dinner. This afternoon I went back and Tige and Corby came and Home Myers pretty late. Rolson came with a lot of crates and picked up 20 bushels by measure for himself. Neff came down and helped us till after five. Tige Corby and I worked till dark and finished the job and Home Myers hauled them up to his barn. When I got home Frank informed me that the side filler had broken down so they had come home about four o'clock and Dad, Ersk and the baby had gone down to Auntie's for tea as Jim & Mrs. Ross were there. I did the milking and Frank and I had tea then. Frank went down town and I went down to stay at Frank Aude's as he is still pretty sick and his sister in law told me at noon that she would be very glad if some one would come so that she could get a little sleep so noon but herself and Carl have been there since before Mrs. Aude died. Frank told Dad. I was there so

he came in on his way home and stayed the rest of the night. It has been cloudy and mild all day.

Sunday October 27th

As there has been no church to-day none of us got around very early this morning. Dad got home about half past five but went to bed for a little while. Auntie Alice came over after breakfast for a little while just to see how we were. Auntie had gone up to the Massie to nurse Woodger and his sister and Miss Gutches who are all down with the flu and she has been there all day. They changed the time back to the old system again to-day so every one of the pickers ought to be happy. I went down town this afternoon and went for a walk. I had tea with Auntie Alice alone as Auntie didn't get home till after we were through tea. I spent the evening with Marj. Des was over here yesterday with a letter from Dick saying he was much better but in the hospital at Coquitlam. Beautiful warm day, rained a little.

Monday October 28th

Frank and I went down to Mr. Flemming's to thrash this morning but it began to rain before we got started.
