347 DAYS PAST

Friday

19 TO COME

A Distinctly Apparent Blood Poverty, especially when verified by hematologic examination, requires a definite and dependable anti-anemic. **Pepto-Mangan (Gude)** not only restores the red cells to their normal condition but also creates new erythrocytes and materially increases their hemoglobin percentage.

Weather

Temp.

Warm thived  
the roads are muddy  
Maude went to school  
Grace passed well  
enough to go. Blair came  
for her to night. Sam  
Young was here this after  
noon helping John build  
fence around the orchard  
I finished Maude's  
dress yesterday. & today  
I made a collar for Albin  
& finished making over  
Grace's dress
