149 DAYS PAST

216 TO COME

Vitalizing as well as Nutritive Treatment.

In marasmic and exhausted conditions it is wise to supplement intelligent supportive and nutritive measures with treatment designed to improve the quantity and quality of the blood. **Pepto-Mangan (Gude)** is quickly absorbable and furnishes the material necessary to restore the vital fluid. It is therefore indicated in all conditions requiring reconstructive measures.

Weather

Temp.

Very warm all day and raining in the evening.

Papa went down to Charlie Abell's Place to a Liberal Meeting.

Eugene has made his usual call. We sold 50¢ worth of lettuce.

Evlyn was over for some lettuce. We carried what we took to her.

Trilby on our wheels.
