362 DAYS PAST

3 TO COME

Rectal Hint.

In the preparation of the rectum immediately preceding operation, introduce a Sims' speculum (or Humphries' modification of the Sims) and cleanse the rectum thoroughly with a saline irrigation. A few minutes spent in taking this precaution will often save much time, as the lower bowel has an aggravating custom of expelling its contents at most inopportune moments.—Wagner; *Int. Journ. of Surg.*

Weather

Temp.

A fine day
Maudie brought her standing
out for dinner, then she
Melba took her home this
afternoon, little Tom came
with her. The girls & I was
up to George Davis's this
evening had a good time.
John was down to sheds
to night. Mariah 11
