

Sunday April 28th

Frank and I went down to church this morning and Aunty and Mary came over to dinner. This afternoon Aunty, Mary, Sid and I went to the woods and got a great lot of may flowers and Spring beauties and a few adder tongues, the drilliums are not out yet. The flowers are very thick back there and are big and a great variety of colours. Jim & Mrs. Waddle were here when we got back and Dad said Tom and Bert Thompson had been here. Frank was down at the Ryesses on his wheel. Ernie, Aunty, Mary and I went down to Aunty's for tea. Aunty Alice had been down seeing Lila off as she went up to Lynn Valley in the fire car and is going to start working for Chris Quamby to-morrow. We all went to church to-night except Aunty and Aunt Ida and Percy Kin tree & I assumed our duties as sidesmen. After church Mary and I went down with Aunty Alice as Mary had left some flowers down there I got home before Frank as she had gone to Simcoe on the car with young Lumping and Crosby. It has been very warm all day with a south breeze but it rained a little shower to-night.

Monday April 29th

Frank has been plowing all day on the five acre north of the orchard and thinks he can finish it to-morrow. Dad went over first thing to see if he could get some barley from Jack and saw Billy Mills who said they had a little but didn't know whether they would have six bushels more than enough for themselves but I went over and helped him clean it up and he decided that he could let us have our six bushels. Dad, Sid and I went after it right after dinner and then Dad went down to Sam's and borrowed his disk drill and drilled till about seven o'clock on the wheat back of the barn. It was in beautiful shape and the disk drill hardly cut out any wheat but as he didn't have it set in very deep it didn't all cover. He didn't get all the field in as it began to rain before dark, so there is the little piece west of the ditch unsowed. Young Leo Mitchell was in this afternoon to have Dad lance a big lump on his mare's breast. Fine day, a little shower to-night.

Tuesday April 30th

Frank plowed all morning and got the field done
