163 DAYS PAST

TO FRIDAY

203 TO COME

The Secondary or Complicating Anemia

of a constitutional infection or diathesis should not be entirely neglected. Pepto-Mangan (Gude) can almost always be given, with distinct advantage to appetite, digestion and general well-being, during the continuance of such other treatment as may be indicated.

Warm but windy
Had two swarms of bees
but one went back. Maude
& Gertrude went to school
Eugene & Altesa wa here
for dinner, on their way
to Aylmer. John died a
load of gravel this morn
ning. & culterated even
this afternoon. Lady & seven
