

road, most of the way to
Riverside our next stop but
mostly all picked. This is
the most prosperous looking
part of the country we have seen
arrived at Riverside about
noon. Parked across from St
Hidalgo and took a walk
in the Park. It looks just
the same as 3 years ago.
after dinner called on Coffey
Bros. both well but their mother
has been in bed 2 1/2 yrs with a
broken hip. drove to Fairmont
Park. a great park for children
all kinds of swings etc.
the Lake was not as nice as
usual, the water had been
lowered to repair a bridge
after supper called on Mr

David. he was glad to see
me. and we had a long talk.
May 12th Leaving for San Diego
think we both hate to leave
here. we both think it is the
prettiest place in Calif.
The first few miles out was
orange groves. then we climbed
a grade up the hills. then
all farming country to Perris
about 25 miles. Rocky around
here. Lots of olive groves some
had the trees planted among
the rocks. next stop Lake Elsinore
a nice little inland lake and
village, all farming from here
to Temecula where we crossed
the river Temecula on a floating
bridge. the main bridge washed
out by the July flood
