17 DAYS PAST

THURSDAY

349 TO COME

To Restore Functional Efficiency.

To encourage and stimulate normal anabolism after the subsidence of an acute illness, the exhausted convalescent requires blood food as well as tissue food. Pepto-Mangan (Gude) restores the functional efficiency of the circulating fluid, increases its oxygen-bearing capacity and thus acts as a general tonic and reconstituent.

Weather Snowed considerably Temp. Eugene  
 blowing nearly all day. Eugene  
 brought Melba home & they  
 was here for dinner. John  
 helped the beef butcher, he  
 killed four pigs. I made  
 Melba a new pair of bloomers  
 to my suit. Mrs George Davis  
 brought the material home  
 to make them for her. Mrs  
 Dance is much worse to day  
 but a little better to my suit.
