234 DAYS PAST WEDNESDAY 132 TO COME

Facial Erysipelas.

Have beside bed bowl of boric acid solution in which ice is placed. Keeping cloths frequently moistened with the solution continuously on face effectually relieves pain and burning. Where leg or arm involved: Wet dressings of boric acid or aluminum acetate. In migratory cases: Ishtyol may be applied or surfaces painted with picric acid solution.—Erdman.

Weather

Warm

Temp.

rained a little enough
to lay the dust that was
all. Mella went to Eugene
this morning to stay with
Maudie until tomorrow
night. John dressed manure
this morning & dug potatoes
this afternoon I crushed
besides dozens of other things
going to the Cox went to stand
with Myrtle & Cam. Cecile
thashed at Kilmer's Park
