279 DAYS PAST

86 TO COME

The Anemia of Uncinariasis.

A physician from Alabama reports: "It gives me a great deal of pleasure to testify to the results of **Pepto-Mangan (Gude)** in the secondary anemia of hook worm disease after the administration of thymol. One patient showed R. B. C. 2,675,000. After 30 days of **Pepto-Mangan (Gude)**, 3,500,000 and gain in weight of 12 pounds."

Weather *An nice day* Temp. |

The girls & I went to  
Mrs. Brakes for dinner  
& I went back for Amity  
Maude, John & Joe were  
over to Cengene all day  
Joe stayed to night! -  
Maude & the school  
girls & Miss Storey had  
a picnic up on the old  
Beemer farm after school  
We have all had a good  
Billy & Polly & Dell's time
