

Friday March 7<sup>th</sup> 1927.

There being a larger amount of cream than I cared to carry to the corner this morning I hooked up and drove with it and went on over to Lois and got the bag of oats I left there last night and as it was a beautiful morning the whole family went with me. Mary went in and visited Mrs. B. for awhile and Bill Donald came along and held Tom & me in conversation outside.

This afternoon I drove down town and met

Dick Frank & W. J. Thompson in the lodge anteroom and received instruction from W. J. after which Dick got his big new car out of Ted Nicoll's garage and took Frank & me up to the cemetery corner. He didn't know any thing like as fast as Ben Ivey did last fall but the car seemed to me to ride much easier than Ben's Stutz. Dick's is a Nash Advanced Six four door coupe. I heard that it and Ben's Stutz were the two finest cars in town and as Dick paid over \$3000 for it I suppose it is about right. I didn't get home till after six but Tom came over after some milk and helped me so the chores. Fine and much warmer to day. The roads are quite slippy again.
