

from Dad as he says he has a chance to buy a farm and wants to make a first payment. Aunty hasn't come home yet and says she won't be back till Thursday.

Tuesday November 7th
It has been blowing a North West wind good and strong all day. We did not get any thing done at all to-day. Sam and Allan Law and young Philip were here all day working with their engine as something has gone bust on it. The boiler was leaking. We were going to take the wagon down and get our potatoes from Bob Law. but he did not like to leave the men there with the engine for fear of fire. I fooled around in the house most of the morning. This afternoon I cut some wood and went down town with Enah. I got my cheque from Ottawa at the Post Office and deposited it in the Crown. I have it all in there now and have \$98.98. Then I got my hair cut and went down to wait at Hubby's for Enah who was at Auxillary. I waited with Hig. Till Jubert and Frank came and fooled around and at last went home with Dick who came soon after and left Jack to wait for Enah. Bill Oaks was over this morning and got hooked for a job whenever he was wanted and also some money

and put them down cellar and then did at afternoon. I have heard a the antiful day and tonight. The Indian Summer coming

Wednesday November 8th
The men came this morning and got their engine and outfit and took it away at last. They evidently had some more trouble with it at the top of the hill out here. My hope came before they were gone to see what was the matter with them I suppose. Dad and I waited most of the fore noon, trying to raise the sack off the wagon up on the beam after a lot of trouble with the hay fork ropes and Stan's heel windlass we took the wings off and got it off in pieces. Then it was about eleven o'clock and too late to go down town so we went and pulled a couple till noon and got the biggest part of them up. This afternoon we went down with Harry and Belle and went to get the potatoes but they were not sorted and we did not have time so we said we would be down Saturday. So we got some groceries and Dad paid his takes and we got the cider press for Frank. We got John Delanberg and took him home. We also saw Bob Blake and he said he would meet us but he didn't. We got out on angles when we got home
