169 DAYS PAST

168 TO COME

A Definite "Iron Lack"

in the blood renders normal oxygenation of the tissues impossible and the "give and take" of repair and waste is thus interfered with. **Pepto-Mangan (Gude)** supplies the necessary hemoglobin-producing material, in promptly assimilable form, in Anemic, Chlorotic and Marasmic conditions.

Weather

Temp.

A very warm day. Maudie's her father was to buy this morning. John took some barley to mill. Mrs. M. Day was here for a few minutes had a nice visit. The girls & I cleaned the house all through. Maudie & Melba went for the mail.
