146 DAYS PAST

219 TO COME

Therapeutic Suggestions.

It appears to be the common idea that alkaline urine seldom occurs in young subjects. A more general use of litmus paper, especially when the urine contains much mucus, will show alkalinity in the urine of many young persons, and especially among young men who have been "cured" of gonorrhoea. We have noticed that adequate doses of benzoates, given to restore acidity, will frequently produce cerebral symptoms of an annoying character, and they should be carefully administered. Try to pick up these cases of alkaline urine early.—*Mass. Med. Journ.*

Weather

Temp,

Rained this morning
had a fine shower. I drove
the girls to school with Polly
& Eugene went for them with
Mr Danes horse. Dr Aug came
& concealed the Achart cows
tit. Eugene ploughed all
day until four, when he
went for the girls. I nearly
made Mellas new silk dress
Maudie went over for Cecil to help
Polly to her do a question
