108 DAYS PAST

257 TO COME

Surgical Suggestions.

If, in a case of probable "appendicitis" in a child, the history is of several attacks of pain, if these are severe paroxysms with complete remissions, and if there is a comparatively small movable mass in the iliac region, examine the stools for blood. The case may be one of intussuscepted appendix.  
—*Amer. Journ. of Surg.*

Weather Water John & Eugene Temp.

went out to Eugene & commenced seeding & bowed about eight acres. Bill Pranda helped me all day mended a shell painted the summer kitchen with what little help I gave them & finished cleaning it. Turkey standing came out & got ten dozens of eggs for the hatcher.
