FRI. JUNE 10, 1898

Wea.

William stops here at night so he is always up first, and away to his work. I got up and made the fire and we then had breakfast, I was busy outside transplanting flowers, and mowing grass and helping Mather fill the leach to make soft soap. There is plenty of work for every day.

Ther.

SATURDAY 11

Wea.

I rose this morning and blacked the stove, and then made the fire, I put water on the leach and run off to lye. I scrubbed the stoop and cookhouse, we had heavy rain in the afternoon. I was fixing the boys pants and blouses, and ironed Williams white shirt.
