281 DAYS PAST

85 TO COME

Co-existing Derangement of Digestion

is no bar to the administration of a suitable hematinic for the correction of the blood poverty that complicates or follows such diathetic conditions as Tuberculosis, Syphilis, Rheumatism, Malaria, etc. **Pepto-Mangan (Gude)** can be safely and confidently administered as it is so decidedly tolerable and free from irritant action as to permit its use in almost any condition.

Weather

A fine day

Temp.

Maudie & I went to Opliner
this morning, ordered our
trats, & night Mellor & I
went for them. John had
a man fixing the pump,
have got to have an
new one at the house.
