

Wednesday, May 27

January was a very steady month, about 12 inches of snow fell and it was splendid sleighing since before Christmas, several times the thermometer dropped below zero but scarcely a day that it thawed at all.

I spent nearly all the month back at the bush cutting wood, taking Lorne to school in the morning. Don came back after dinner with the team and we brought a load of wood at home each night. Drawing out manure and odd jobs on Saturday.

February started cold, but soon became milder thawing so much about the middle of the month that it spoiled our good sleighing.

Attended Annual Fire Assurance Meeting in Galt and Edith and the boys visited at Duncan Millers. and on the 13th. went to Will Millers for dinner and to Uncle Andrews for tea.

March came in very richly, with a fall of snow which made a few days sleighing again, on the evening of weekend. Edith & I took a sleigh load and went to a shower at Mr & Mrs A.C. Lemington for Alice Lyons. Spent the first week in Mr. cleaning, papering and painting the sitting room.

Mar 5th Spent the evening with Mr & Mrs Allan Purley
- 10 - Tapped the maple trees at the bush (about 55) and started to trim the apple trees.
