195 DAYS PAST

170 TO COME

The Handsome Bacteriological Chart,

issued by the American agents for Pepto-Mangan (Gude), is a most useful and ornamental addition to the physician's office. It consists of sixty beautifully colored lithographs of the pathogenic bacteria. It is an excellent chart for reference, as well as a reliable guide for the laboratory worker.

Weather

Very warm

Temp.

I took Mrs Standing down to the Cemetery & then on down to see Jacksons for cherries. I got 24 quarts & Mrs Standing got fourteen. Maudie picked nearly all of them & I did the rest up this afternoon. Then Maudie & Corliss went for the mail Corliss stayed with the girls for supper. Cecil was over for the a little while. Then we all went back with them. Dilly & Mariah's
