

one town to Auntie Alice to test it. Prohibition came into effect at seven o'clock to-night and we thought there might be some fun up town but when around till about twelve o'clock and although there were quite a few drinks around, most of them had gone home and things were very quiet. The baby was pretty sick last night and has not felt very lively all day. Very cold wind but cloudy ^{to night} & mild.

Sunday September 17th

Frank, Hank and I drove down to church this morning and Dad. looked after Sid. Ben Huey was over for quite a while getting instructions as to the treatment of his horse which has a bad case of fistulas withers. He is just home for over Sunday and is still keeping Frank to run the farm. Auntie Alice felt pretty sick to-day with her cold so none of them came over to dinner. but Dad. went down this afternoon and had tea with them. I did chores and started to read this afternoon but went to sleep. Frank and the boys spent the afternoon back in the gully and I and Frank did up the night chores. I went down to-night and caught May & Ned. Law coming out of church there had been a Sunday school meeting after service. I saw Lewis Woodson on my way home and said good bye. He is going back in the morning. Cold and cloudy all day rained a little this morning. Feels like fall!

Monday September 18th

I took Joe and Belle this morning and got Ben Huey's day and went down to Burn Ball after our ten bushels of seed wheat. He had it all cleaned so I wasn't long getting it and got back just about noon. I came around by town and got my chicken crate at the station. Right after dinner Dad. helped me clean up my cockrels from the fattening crate and put them in the shipping crate I had 52 lbs as near as I could make it with the old spring scales and 12 birds. I took them right down so they would get off on the 2:45 train. In my way up town Bub. and Johnnie hailed me for a ride so I took them up home and as Dad. had four bags of barley and oats bagged up so we took them down to the mill and waited for them to be chopped and went all through the mill. They came back to the gate with me and then walked on around the block to town. It is Civic Holiday in town so they were not working. Dick went to Toronto on Saturday and was coming back to night or in the morning. When I got home I took the horses out to my plots but forgot the double trees so couldn't work at it but took the horses in and started to do chores. Dad. fixed the roller this morning and rolled my plots and the fresh plowing this afternoon. Frank worked all day with his tomatoes. He had three women working over there and got 66 baskets but didn't get his 40 basket.
