Gastric Aphorisms.

It is not always possible to differentiate gastritis from the early stage of carcinoma.

The use of the stomach tube and an examination of the fasting stomach furnish the only distinct evidence of the presence of dilatation of the stomach.

There is as much caloric value in a large ripe banana or a large ripe orange as is contained in an average slice of bread.

The tongue is an index of the colon more than that of the stomach.—Bell; Med. Herald.

Weather

Temp.

Cold & rained every few minutes but had a strong wind. I washed the clothes got dry & Stella ironed them. Maudie & Heattie went to Aylmer & got the linings for Stella's coat. John has gone to Aylmer with Clarence. Coop's night. Alster & Eugene are in Aylmer. Gus boy & Evelin was over. The girls & I got the sweet apples picked. Maria &
