87 DAYS PAST

278 TO COME

Neuritis and Debility Following Influenza.

A country physician in England refers to Pepto-Mangan (Gude) as "of great value in the neuritis and general debility following influenza." Its value in this special field is no doubt due to its pronounced hematinic and general reconstructive properties.

Weather Warm & Sultry Temp.

Roads in a terrible condition almost loose your horse some times. I took John to Kingsmill for to take the train to St Thomas going to Mrs Peoples. Eugene went for his side board up to Mrs Weslakes. Evelin was over for a few minutes still red was up a little while. The girls had their music lessons. Maudie went with Eugene for the side board. Eugene didn't go to town. Billy 3. Polly 17 1/2 cow had a calf
