

November 1893

26 Sunn which I hope will do a good deal of good. The weather is still fine. There was hard frost and cold wind for a few days.

27 Lucy & Katy come home this morning. Pa drove Bridie to Summerstown. There was a pretty heavy shock of earthquake about 11.30 A.M. it rattled all the dishes on the table. Murdy is not so well today pains in his back and legs.

28 Wednesday. Cold Murdy was in bed all day.

29 St. Andrew's day. Very fine. I had Harrow working.

The oldest inhabitant does not remember a finer November. The cattle were picking up most of their food and ploughing went on until all was done. In the spring farmers will only have to harrow.
