263 DAYS PAST

102 TO COME

Examine the Blood

of a baby that is the subject of rickets or marasmus count the red cells, and estimate the hemoglobin; then order **Pepto-Mangan (Gude)**. From time to time re-examine the blood and note the progressive increase in its vital elements. Also observe the improvement in the child's color and appearance.

Weather

Temp.

Very warm
Melba & I went this
morning, to Mrs Mc Coy's
& got Maudie & then
went over to Eugenes
& stayed all day. Then on
our way home called
on Mrs Dence & Aunt
Bell arrived home
about half past eight -
had a lovely time
