

Sunday August 1<sup>st</sup>

This morning Alm., Dick, Frank and I went for a swim before we had our breakfast and didn't get back till about ten o'clock. we just lay around under the willow tree with the rest of the family till dinner time. After dinner we had a little music and then Billy, Kathleen, Alm., Dick, Frank and I went down to the lake for a swim. The rest went to Post Office and took Harry Ansley, L. & M. Millman went up to interview Mr. P. Jones on Hubby's behalf. They said they had a satisfactory consultation. Nita drove the car and Dad went up with them. Dick and Alm. separated from us when we got down town and Frank went to some nook of his own to undress when we first got there, we couldn't get an empty bathing house, there was such a crowd in but at last one was vacant in the men's section and we all three used it. Kathleen undressed first and then Billy and I. Alm. came down after awhile with Mildred Henry and used it too but managed to get another one for Mildred. Percy & his wife were down there and we were in a long time as the water was fine. We went up to Hubby's tea where Mr. & Mrs. Millman, Nita and Ersk joined us. Dick and Frank went to Dyer's and home respectively. We sat around down at Hubby's most of the evening. Some of them went out to the Ansleys and Gibb's

for awhile. It has been hot and sunny all day.

Dad. started to cut the wheat this morning and worked till after dark to night but got it all <sup>the meadow field.</sup> down. We didn't get it nearly all set up but if it doesn't rain we want to haul it right in. The Millman's all left this afternoon. They went down to the lake this morning and didn't get back till about one when they supposed to have started but they all got off soon after dinner. We went out after tea to night to run the binder in the barn and were about an hour at it. It was half past ten when we got back to the house. It has been a fine day to day but looks <sup>black.</sup>

Tuesday August 3<sup>rd</sup>

We were preparing for a good day hauling in to day but first thing before breakfast a heavy shower came up and dashed our plans to pieces. I drove Dick down to the bank and got some roofing paper for the new chicken house. Dad. and I worked at the hen house the rest of the day ~~at home~~. About five o'clock we went out to look at the wheat and shocked a little of it up. I went after the cows at half past five and just as I got to the gully it began to rain and kept it up for two or three hours of heavy pelting. I caught
