61 DAYS PAST

304 TO COME

## "A Wonderful Amount of Good."

A practitioner of Orkney, Scotland, who appends to his name the qualifications, M. B., M. S., Edin., L. S. A., Lond., writes: "I have personally used for malarial anemia, one bottle **Pepto-Mangan (Gude)** and I grant you all you claim for it, as it has done me a wonderful amount of good where other organic compounds of iron helped me but little. I intend to prescribe it freely in full expectancy of marked benefits."

Weather

Temp.

One of the windiest days I was ever out, and very out & very cold besides. I took the girls & their Father went for them. John was over to Mark & Eugene down to Bingham's, for the evening. We washed & I spent the best of my days evening, mending old coats & suits. Mark was over in the morning when I came & saw taking the girls to school. ~~Bill had~~
