118 DAYS PAST

Sunday

248 TO COME

**Gynecological Hints.**

The standard solutions of nitrate of silver for use in gynecological practice are as follows: 1. For the cervix, 40 grains to the ounce. 2. For the vagina, 30 grains to the ounce. 3. For the external genitals, 15 grains to the ounce.

Frequent and painful urination in women is often due to urethritis which can be cured by the proper use of solutions of nitrate of silver.—Dr. R. Waldo; *Int. Journ. of Surg.*

**Weather**

A fine day

**Temp.**

looked like raining to night  
but didn't. Maemie went  
to church this morning & her  
Mrs Van Wag was there. To  
night the girls & I went  
Grace came to night  
while we was gone to  
church.
