333 DAYS PAST

32 TO COME

The Reserve Supply of Iron.

The reserve supply of iron stored up in the body is said to be one of its physiologic "factors of safety." It is fed out into the blood when required. When such reserve store is insufficient, anemia results. **Pepto-Mangan (Gude)** presents the organic ferruginous material for blood enrichment in palatable, tolerable, readily approachable form.

Weather

Temp.

Warm. I went away
Mrs Marchant's. Charley's
Mother was very ill, was
there all day, came home
to night and brought
the horse, then Charley
came for me & I went
back with him & remain-
ed all night.
