316 DAYS PAST

MONDAY

50 TO COME

July 28, 1907.

Dr. J. E. Copenhaver, Aubrey, Texas, says:

"Your bacteriological chart came to hand in due time. It is instructive and also an ornament to a physician's office. Last, but not least, **Pepto-Mangan (Gude)** is one of the finest tonics to give to young or old, especially to chlorotic girls."

Rather damp all day, didn't rain but was dull & chilly John ploughed all day. Mr. Leary was over to night. Fessie Marchant was out this afternoon. I washed but the clothes didn't dry any. Girls both started to school again this morning. John went to Kingmill to night for coal oil. Poor old Billy has had a hard day to day.
