

Saturday October 5th

Frank went back to Art's to thresh this morning and they finished early before noon. Dad and I cleaned out ditches in the wheat field and I dug a few potatoes in the corn field this morning. There are some good potatoes out there as far as size and clearness but the wire worms all had in them. This afternoon we went back to get a load of clover seed but there was such a wind I couldn't load it and when we got a little more than the rock full it began to rain so that we had to quit. It didn't rain much but drizzled. When we came up Dad went to clean some more ditches and Frank dug some more potatoes. I picked what few Dade apples there were left and then washed the buggy. Hubby was over with his dog and gun this afternoon and he and the baby trailed all over the farm. Hubby wanted to give Gyp a lesson in retrieving so shot a black bird out in the corn field and let her find it but she didn't hit and hiked for the barn with it and he supposed she ate it but he couldn't get near her. He stayed to tea. Hubby stayed to tea and rode down town with Neff who came to see if we had got any more potatoes dug.

Sunday October 6th

Enah and I drove down to Church alone this morning. Cousin Willie took the service and Geitha sang a solo which was very pretty. This afternoon Mary, Glad, Luu and I went for a drive up towards Victoria and got some chest nuts, they seem to be thick but not quite ripe. It began to rain before we got home and has been drizzling and raining all evening. After tea Dad & I went down town. Dad went down to see Roy at Auntie's and Mary and I went over to see Glad Loew who is going away in the morning. We got very muddy and wet coming home and found Frank sitting up waiting for us to tell us that Enah was sick, she had a bad attack of cramps and had gone to bed. Frank having packed her in bed iron.

Monday October 7th

Enah was sick most of the night and has been in bed all day but felt a little better to night. This morning Frank and I took Clementine and Mary out to Repton as Demming ships from there. I led them both and Frank drove. We didn't have much trouble, we were late getting started as Edmund England was in before breakfast and bought a same lamb from us for \$4.00.
