44 DAYS PAST

321 TO COME

Danger Signals of Cancer—(Concluded).

(5) Cancer of the stomach and alimentary canal: Here the early symptoms are less evident. After 40 years of age, obstinate indigestion, loss of flesh, strength and appetite, persistent colicky pains in the abdomen, obstinate constipation or diarrhea and bloody vomitus or stools, are signs of the gravest danger, and must at once be investigated, and their cause determined.—Childe.

Weather

Temp.

Cold north east wind, S W Peuple was buried this afternoon. Edna & Eric, Will Waterbury & Dauph Peuple came to the cemetery. Isaac Heuffman was buried also. Eugene has gone over to Mr. Dances. Eugene said Walter Ashton. I drove over to Emilies & got Mellus furs. Took the children to school then when I came from the funeral brought them home. John went back to St. Thomas. The yearling ewe had two lambs Bill 13. Good wheeling.
