157 DAYS PAST

WEDNESDAY

209 TO COME

Extract from the Report of the Chairman of Committee on Infringements. National Wholesale Druggists' Association Meeting at St. Louis.

"There is a hidden infringer who never appears outside the pale of darkness; that is the dishonest man who infringes by substitution. Such a man for the sake of a few pennies extra profit wilfully defrauds the physician and the patient at a time when health and life are in the balance."

Note: Prescribe an original bottle of Pepto-Mangan (Gude) and avoid substitution.

Weather

Temp.

Rained a little this afternoon  
Maudie stayed with Mary Braudt  
all night. Mella went to school,  
to night. Mella washed  
I showed out some of the strawberries  
John unloaded his load of gravel  
he brought last night. I cut  
this tea all day. John took some  
cabbage plants down to Charley  
Davies. Had a junk peddler  
here this afternoon.
