288 DAYS PAST

Tuesday

78 TO COME

Syphilo-Dermo-Urologic Aphorisms.

Post-operative abdominal pain is quite often a reflex that owes its origin to a simple condition in the urinary system and may, in many instances, be easily relieved by catheterization. This is a good point to bear in mind and is both useful to remember and simple to carry out in a case, the relief being marked and grateful to the patient.—*Amer. Journ. of Derm.*

Weather

Temp.

*Raining a little to
night. I took the girls to
school. Mella went for
groceries. John ploughed
& men
Daulds
last. My
Davises.*
