299 DAYS PAST

66 TO COME

A Certain Index

of the vital integrity of the blood is the finding of a relative sufficiency of iron-holding hemoglobin, as a result of the hematologic test. **Pepto-Mangan (Gude)** "makes good" the ferric deficiency which exists in Anemic, Chlorotic and Marasmic conditions, and acts thus as a corpuscle constructor and hemoglobinogenetic.

Weather

warm but

Temp.

very windy. John went to Eugene & picked apples all day. got about twelve bushels. I was home all day. Mrs. LeLine, came out a little while in the morning. came with Dr. Augustine & stayed with me. Girls drove to school. The young people that have rented sheds, farm was married yesterday & they are giving them a shiver to night. I cleaned the kitchen bed-room & dug my dahlias & we put them down cellar. Mariah, 5 - Billy, 13
