## Improved Technic for Sterilization with Tincture of Iodin.

Dedolph applies the tincture of iodine with an atomizer. The spray penetrates into every crevice, the fingers are not stained, there is no loss of the drug as when it is applied on cotton which is then thrown away. Another advantage is that the patient is spared the pain of contact as the wound is not touched except by the spray. Sloping and low, hidden surfaces can be reached better by the spray than by fluid.—*Deutsche Med. Woch.*

Weather

Temp.

Thawed & rained  
some to night. Girls went  
to Aymer & down to Mr  
A. Cavellies. John & Frank  
have been cleaning up  
out's. Girls took Mr Rutherford  
down to Mr Cavellies, with  
them. Mrs Duncan Cooke  
died. Clarence Coy Sweet  
wood. This afternoon
