

you could not eat either  
one too sweet other too sour.  
Canneries use the sour ones.  
Says orange land running out  
as they cannot get machine  
and costs about \$80 an acre  
per year to water, and \$60  
a year to water an acre of  
alfalfa, the other man was  
a Carpenter from Mass. only  
works part of the time.  
grow a lot of cranberries were  
he comes from. says the plant  
on logs. first cover with 5-  
inches of sand to keep the  
weeds down, have to wait 3  
years for a crop. they run like  
strawberries. they cover with  
water a couple of months in  
the winter to kill the cranberry

weevil. and have a machine  
with a scoop to pick them,  
he says Walnuts best to  
grow here. nothing bothers  
them much only codling moth.  
July 12th. Warm again today  
talking to a man from  
Colorado he is like all  
the rest here says oranges  
no good in price, costs  
too much to raise. thinks  
alfalfa best as the dry  
farmers are all out of it  
this year on account of  
no rain.

July 13th. Left the house at  
9:40 a.m. to catch 10 o'clock bus  
to Redlands but owing to  
a misunderstanding there was  
no bus till 11:30 so we had
